Education

Software Engineering

Instituto Tecnológico de Sonora
2020-2024

English B2

22 Years

Skills

- Collaboration
- Good communication
- Critical thinking
- Adaptability to change

Experience

Angular Web Developer

2024 - 4 Months

Digital Government of the state of Sonora

User interface and data query component development using the Angular 17 framework, I participated in the requirements gathering and analysis.

- There were changes in requirements halfway through development, but we were able to adapt the front-end to the requested changes.

Java SE Developer / Product Owner

2023 - 4 months

Instituto Tecnológico de Sonora

Development of a training plan management module for sports faculty at the institute. I participated as an intermediary between the client and the team, gathering and analyzing requirements, using the agile SCRUM methodology.

Technologies that I use

Programming languages

- Java SE
